Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Final Rejection (3/29/07)

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 11-18, as best understood, are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. It appears that the claims includes limitations pertaining to frames, arms, joints, gear mechanism, hydraulic cylinder, solenoid, a carpet, a mat, tires, differential gear, infrared ray equipment, and calculated beforehand to dent the body at the vehicle crash, etc. but the specification and/or claims fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims, as best understood, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
2. Claim(s), elected for prosecution, are confusing and are not clear because claimed limitations, (Claim 11, the arms of the plurality of joints is changed; Claim 12, the angle is controlled by any of a gear mechanism, hydraulic cylinder, or solenoid engaged between arms of each of the plurality of joints; Claim 13, form a portion of the floor of the vehicle; Claim 14, a carpet which is waterproof, elastic, and dust resistance is used over the frame parts forming the portion of the floor, and a mat of thin rubber is used between the frame parts and the carpet; Claim 16, wherein a differential gear is used to change the direction of the vehicle by controlling the rate of rotation of the right and left tire axles; Claim 17, comprising infrared ray equipment set up to measure space between ground and the vehicle; and Claim 18, wherein the vehicle adjusts the angle for the joint of the frame according to a procedure which is calculated beforehand to dent the body at the vehicle crash), are not clearly shown/labeled in the figures and/or lack support in the specification and therefore fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These limitations

must be shown or the feature(s) canceled from the claim(s). Applicant is requested to go through the whole application and ensure that the claimed matter has been described in the specification and shown/labeled in the drawing in such a way as to convey to one skilled in the art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Correction is required.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
